These powerful leaders add to the growing list of 98 Floridians who have earned their NIGP-CPP since the first certification announcement in August 2020. Florida leads all other States and Provinces with the highest concentration of certificants in North America. To date, there are 551 NIGP-CPP leaders across North America, representing 38 U.S. states and 5 Canadian provinces.

The NIGP-CPP is a competency-based modular exam that targets mid to executive-level leaders. And since it is integrated within Pathways, the certification program complements NIGP's research program and the constantly expanding learning modules; providing assurances that the NIGP-CPP remains relevant to the competencies you need to be a successful leader in your career – today and into the future.

Registration for the August 2021 is still available and the November 2021 testing window will open the third week of July.
